WHAT IS SCIENCE BOWL? The Science Bowl is a tournament-style academic competition that challenges and recognizes students' knowledge of the sciences and mathematics. The questions are short answer and multiple choice covering: biology, chemistry, physics, earth science, astronomy, mathematics, computer science and general science. Toss-up questions are read to each team, the first player on either team to activate the lockout buzzer system wins the right to answer the question. After a team member has answered correctly, the team is given the opportunity to answer a bonus question. The team with the most points at the end of each round advances to the next round.

WHO CAN PARTICIPATE? Teams will be selected on a "first come" basis for a maximum of 32 teams (it is possible for a school to register more than one team). A team consists of four students plus one alternate.

EVERYONE'S A WINNER! Each student will receive a certificate of recognition. Students, coaches and volunteers are provided lunch, tee shirts, and grab bag items, all donated graciously by our SPONSORS. Sponsors receive recognition on all printed materials including tee shirts worn by everyone present and on printed materials. The top four teams will be awarded trophies and individual medallions. The winning team receives a banner to hang in their school and will represent the State of Arizona in the National Science Bowl in Washington, D.C., all expenses paid by the Department of Energy.
